ANCHOR CLAMPS
(aerial cable systems)

✅ *Anchor clamp for round cables, 10-16 mm, 17.5kN*
I-T1801.PA-SH

I-T1801.PA-SH cable anchor clamp has been designed to ensure the rapid, simple and secure fastening of ADSS fibre optic aerial cables in a range of diameters from 10 to 16 mm. Anchor clamp consists of removable stainless steel bail, UV resistant plastic wedges and body. The automatic, conical tightening system provides no additional tools for installation and considerably reduces assembly time.

- ➤ Cable diameter range: 10-16 mm
- ➤ Minimum breaking force: 17.5 kN
- ➤ Max. dimensions of body: 42x82x200 mm
- ➤ Bail length: 340 mm
- ➤ Weather resistance
- ➤ UV resistant
- ➤ Wedge mounting
- ➤ Removable bail
- ➤ Tool-free assembly
- ➤ Weight: 0.3 kg
