

✓ Anchor clamp for round cables, 10-15 mm, 20kN **PA-2000**

PA-2000 cable anchor clamp has been designed to ensure the rapid, simple and secure fastening of ADSS fibre optic aerial cables in a range of diameters from 10 to 15 mm. Anchor clamp consists of removable stainless cord, UV resistant plastic wedges and body. The automatic, conical tightening system provides no additional tools are necessary and considerably reduces installation time.

Product ID	Cable diameter range [mm]	L [mm]	L ₁ [mm]	L ₂ [mm]	W [mm]	Strength [kN]	Weight [kg]
PA-2000	10-15	442	212	182	64	20	0.3

- Cable diameter range: 10-15 mm
- Minimum breaking force: 20 kN
- Wedge mounting
- Removable cord
- UV resistant
- Weather resistance
- Tool-free assembly
